

## Brand New Payment method.

This will be different but easy.

1. On the first practice day of each month you will need to cut out the appropriate month's payment form from your sheet. (see your coach if you haven't received a sheet of monthly payments yet.)
2. Preferably make your payment online, write your transaction ID # on your brightly colored payment form, and take it to your child's coach.
3. It is still an option to pay by check. Just fill out the required information and bring the payment and your brightly colored form to the pool and give it to your child's coach.
4. We would like these the first week of every month, but a late fee will not be charged until the 15<sup>th</sup> and at that time your child will not be allowed to swim (neither practice, nor meets) until all financial obligations are met.
5. Also new as of today:
  - a. We would like you to pay entries online but when you do that You must put the transaction # from that payment on your entry form or we can not accept it.
  - b. Also ALL JTSC financial obligations must be at a zero balance on the date entries are due for us to accept entries.

\*If you can not locate your transaction ID # (for payment on line only) then please print a copy of the transaction that is sent to your email after you have paid on line.
